Added Information: My 7lb long hair chihuahua escaped yesterday around 1:30-2pm in the Johnston/Grimes area and we have not yet heard anything as to her whereabouts. We have had people searching almost non stop since her disappearance to no avail. She was last seen heading north east on the corner of 94th and Catalina in Johnston however we live off of Glenstone in Grimes, but just moved recently from Bricktowne in Johnston so we have been looking everywhere and anywhere in between. She's super skittish and shy so hoping drone would maybe be a better help locating her than people. Any suggestions or help would be so greatly appreciated. Thank you so much
